MINEERRET

There's a very good chance you've heard of Minecraft. The block building phenomenon is, arguably, the most beloved video game of all time which has managed to maintain its popularity since its first release back in 2011. Nine years later, it still has a huge userbase of 112 million people playing the game every month. Accessible to those 7+, Minecraft can be a gateway into a world of learning and exploration which encourages players to use their imagination to build three-dimensional worlds with virtual building blocks. While Minecraft is considered relatively safe generally speaking, there are some safety precautions parents may want to consider before allowing their children loose on the game.

# What parents need to know about

#### **OPEN TO HACKING**

Hackers can be a real problem in any online game, including Minecraft. Some individuals can access other people's games to disrupt their play time, or even worse, access private details about players such as their names, email addresses, dates of birth and so on. It would be incredibly rare and unfortunate to encounter a player like this, but it does happen and must be taken as a serious rick.

#### RISK OF GRIEFING

#### CONTACT WITH STRANGERS

ost players aged 7 and over will be able to play the game mfortably and, whilst creating an account does ask you input your date of birth for confirmation, there's no way check if the information is correct nor to check meone's real identity. This could mean that children unger than 7 could access the game. However, what is one concerning is that adults pretending to be children uld theoretically be using false information to access e game and be interacting with your child.

Minecraft can be an incredibly exciting game bu it can also be very addictive. Too much time on the game could impact on your child's behaviou causing them to become irritable or angry when being asked to stop playing. This might suggest it might be time to enforce some time away from the game. Addictive behaviour can be compounded at a young age and encyuraging.

#### 'SCARY' CHARACTERS FOR YOUNGER GAMERS

For the most part, Minecraft is not a scary game. Despite this, there are certain characters in the game that younger children in particular may find frightening. Creepers, zombi and various other 'baddies' can be commonplace in some parts of the game and young minds may find it difficult to disassociate them from real life once they switch off the gar

## Safety Tips For Parents

#### **BLOCK STRANGERS AND UNWANTED CONTACT**

#### **LEARN FROM YOUTUBERS** TWITCH STREAMERS

#### **PLAY IN CREATIVE OR PEACEFUL MODES**

#### MONITOR GAME TIME

#### CREATE A PRIVATE SERVER

#### LEARN TO PLAY YOURSELF

#### CREATE SERVER WHITELISTS

mes you know to be safe, like your child's frien ple they know to be friendly and children will o
