## Foundation Stage Long Term Plan

## Intent

At Christ Church Primary School we offer a curriculum rich in wonder and memorable experiences. We work hard to provide a stimulating environment that provides exciting opportunities, promotes challenge, exploration, adventure and a real love of learning.

It is our intent that all children develop physically, verbally, cognitively and emotionally in an environment which values all cultures, communities and people. We aim for our children to be confident and independent, to believe in themselves and interact positively with others.

We understand that play is an integral part of learning and this is at the heart of our early years curriculum. We believe that the correct mix of adult directed and uninterrupted child-initiated play ensures the best outcomes for pupils.

Warm and positive relationships between staff and children, consistent routines and strong relationships with parents are key. We recognise the crucial role that early years education has to play in providing firm foundations upon which the rest of a child's education is successfully based.

## Implementation

We prioritise creating a 'language rich' environment through the use of songs, nursery rhymes, stories and providing time for quality interactions between adults and between peers. Trained staff ensure that interactions are positive and progressive, allowing children to flourish and gather words at pace in order to become confident communicators. Children are encouraged to become early readers through enjoyment of books and the systematic teaching of phonics. Our curriculum is taught through topics which are enriched with classroom enhancements, trips and visitors. These have been carefully planned to engage the children in our local environment. Topics are supported by quality key texts. These are chosen carefully to encourage children's speech, language and communication development. All planning however, is flexible and responsive to children's needs so plans can be changed and adapted dependent on children's interests.
